DIRECTOR’S NOTES

Mark Twain blamed the Civil War on Sir Walter Scott, and only half in jest. As Twain saw it, the author of Ivanhoe had sold our Southern gentry on a thoroughly romantic notion of war, precipitating the folly of secession and the carnage that followed. There’s truth to that, but of course Sir Walter didn’t start the fire; he fanned the coals. “Of arms and the man I sing…” So begins The Aeneid.

In 1892, a brilliant Irishman named George Bernard Shaw began to write plays. He was living in London, 36 years old and already a famous drama and music critic, a prominent member of the Fabian Society and a pamphleteer on social reforms. And though the stage could hardly contain his expansive and fiercely independent mind, Shaw was a man of the theatre for the rest of his long life. By the time he died in 1950 at age 94, he had written 53 plays, five novels, hundreds of reviews and scores of essays on dozens of subjects. He had won the Nobel Prize for Literature and an Academy Award and was arguably the second most influential playwright in English history. At the height of his celebrity, The London Observer called him “the most famous person in the world.” This year marks the 150th anniversary of his birth.

Why was Shaw so influential? Simply put, because he dragged the English theatre into the modern world. The 19th century stage was largely an arena of heaving passions, thrilling voices and simplistic Victorian morality. Shaw began writing new kinds of plays: stories bursting with passionate ideas, boisterous debates over complex social and moral issues, tales of individuals who defy hidebound hypocrisy and reinvent themselves.

Arms and the Man (1894) was an early success for Shaw and it’s been popular ever since. The play has sometimes been read as 19th century fluff, with plot devices and stock characters straight from the melodramas and domestic comedies of the day. But from old bottles, Shaw was serving new wine; he was undermining the values such plays were generally written to celebrate.
Against the Victorian saber-rattling of Major Saranoff, Shaw sets the prosaic quips of Captain Bluntschli, a mercenary who knows war as an ugly business where blunders rule the day, where veterans hold chocolate in higher esteem than cartridges, where friends are slaughtered ignominiously and paper-pushing is of greater use than gallantry. Between these soldierly opposites, he sets a starry-eyed young lady whose disillusionment is a new beginning. Of course, he also fires satiric salvos at romantic mawkishness and blue blood. But Shaw’s chief target here is the lie of a glorious war.

As Shavian satire goes, Arms and the Man is light entertainment. But it hasn’t lost either its charm or its relevance. Indeed, it’s remarkable how well the shoe still fits.
